

FIGURES

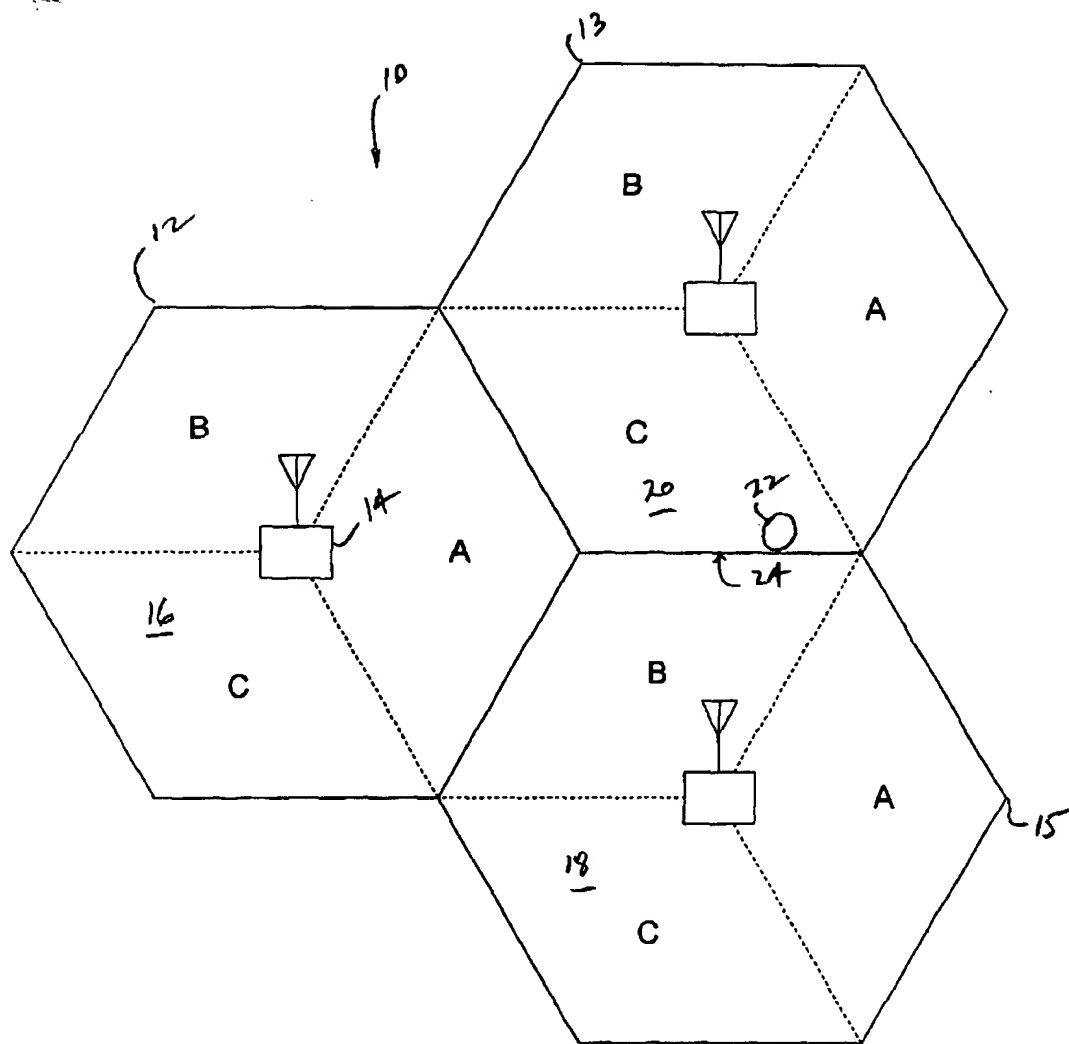

Figure 1

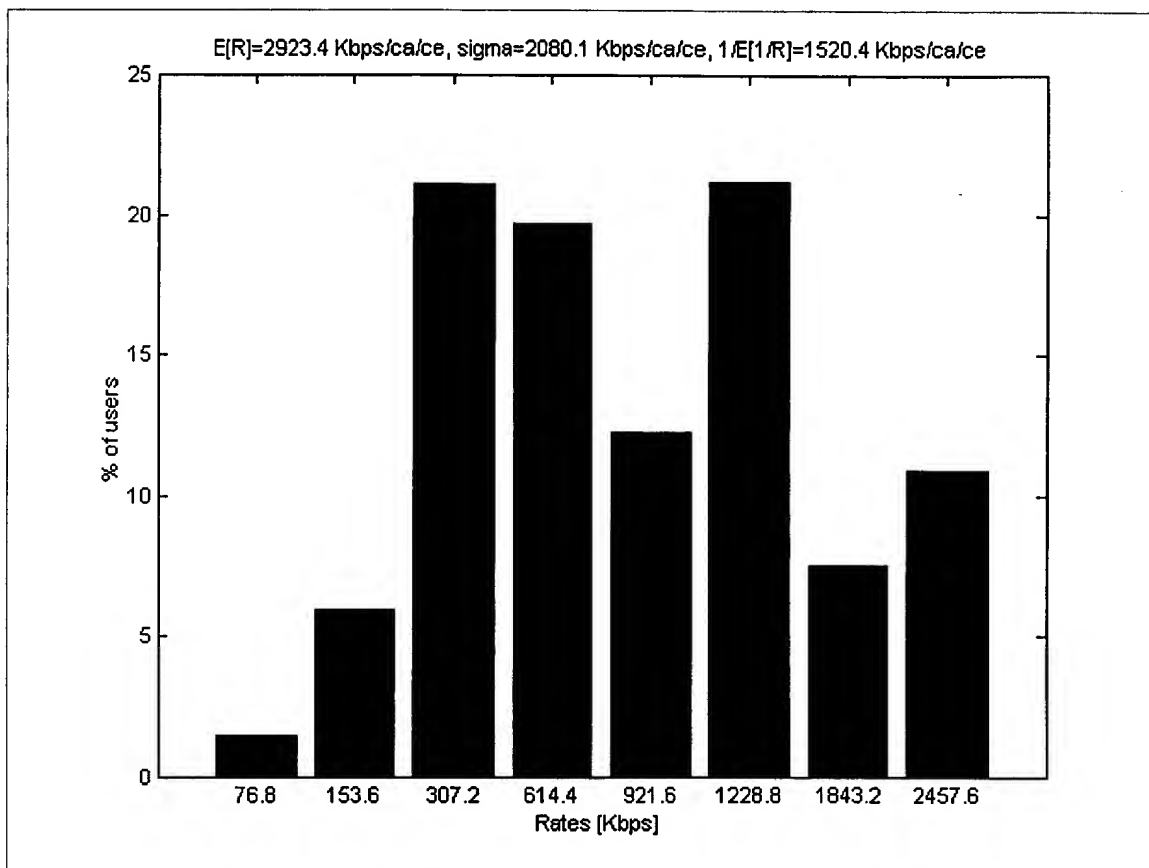

Figure 2

The diagram illustrates a Sector Control Arrangement (52) which contains a vertical stack of Sector Controllers (40, 42, ..., 44). Each controller is connected to a corresponding Sector (54, 56, 58, ..., 60) via a signal path (54, 56, 58, ..., 60). The sectors are connected in a chain, with the final sector (60) connected to a User Antenna Rate R (61). The diagram also shows a signal path (54) from the first sector controller (40) to a User Antenna Rate R (61) via a series of sectors (54, 56, 58, ..., 60). The diagram is labeled with 52, 40, 42, 44, 54, 56, 58, 60, 61, and USER ANTENNA RATE R.
